TENREHTE TECHNOLOGIES

NAMED AS FINALIST IN THE

2012 NY GREENTECH 50

The NY GreenTech 50 identifies the 50 most promising greentech companies based in NY.

ROCHESTER, NY USA – October 2, 2012 – Tenrehte Technologies, Inc., a leading producer of wireless energy efficiency products, is pleased to announce that our company was selected as one 50 most promising green technology (“greentech”) companies based in NY.

The NY GreenTech 50 seeks to identify the 50 most promising greentech companies based in NY that are doing game-changing things and which are growing at a torrid rate. The companies involved gained valuable market exposure in a credible and safe way.

The final list of companies was revealed at the 2012 Green Tech Monster event held at the Rosenthal Pavilion in New York City's Washington Square Park. In addition to the event, a full report featuring the NY GreenTech 50 will be sent to the media, select investors, corporate innovation teams and acquirers to help raise awareness of the companies that are recognized.

“We are absolutely thrilled for our company to be recognized as part of the NY GreenTech 50,” said Mark Indovina, COO of Tenrehte. “This is an excellent, independent validation by leading experts of our company, business model, technology, and ultimately our flagship product PICOwatt®, which is the worlds leading energy control device for a green tomorrow.”

About Tenrehte Technologies

Tenrehte Technologies, Inc. produces solutions to enable wireless connectivity in smart grid devices, ultimately improving people's lives and saving them money. Tenrehte creates products that will empower consumers to take a more active role in the grid, eliminate wasted energy costs and reduce their carbon footprint. The company is headquartered in Rochester, NY USA. More information can be found at: www.tenrehte.com

About Green Tech Monster

Financing, Scaling and Exiting in Clean Tech, the first in the Green Tech Monster event series, will be a day long event featuring investors, acquirers and successful green tech entrepreneurs sharing their perspectives and debating the best ways to succeed in the fast-changing world of clean tech. The agenda of the event is wholly structured around providing a variety of perspectives and actionable information to help green tech entrepreneurs navigate the path from idea to exit. It will also feature some time for select green tech entrepreneurs to pitch assembled investors on their businesses. Learn more at: about Green Tech Monster at: www.greencapitalempire.com/events

About Green Capital Empire

Green Capital Empire (GCE) puts the world of green tech investors, acquirers, startups and trends at your fingertips. It provides amazing, real-time data and information on the world of green tech to make the participants in the green tech economy smarter, better connected and hyper-efficient.
